FOR A BOND ISSUE

UNION TOWNSHIP TALKING OF ELECTION TO VOTE ON $15,000.

FOR PERMANENT ROADS

Petition to Be Presented to County Court to Have an Election Day Set.

At the meeting of the county court to be held on Monday, May 6, the township board of Union township will present a petition to the county court requesting that body to set aside a date for a special election to be held in that township for the purpose of voting on a $15,000 bond issue for permanent road purposes. It is only necessary to secure twenty signers to the petition to be presented to the county court, and that many and more will be secured by the time the court meets.

It requires a two-thirds majority for the bond issue to carry, and should it be successful Union township will receive $15,000 from the state, giving that township $30,000 to spend for good roads.

Jefferson township was the first one in the county to have the road bond issue presented, but it was called off a day or so before the election day. Their election was to have been last December.

People in Union township are greatly interested in the proposition, and it is to be hoped that that township will carry the proposition, as it means better roads. The outcome of the matter in that township will be watched closely, and should the proposition carry, probably other townships will take the road bond issue up.

The petition that is being circulated in Pickering and that township follows:

To the Honorable County Court of Nodaway County, Mo.: We, the undersigned twenty or more legal voters of Union township, Nodaway county, Missouri, hereby petition your honorable body that bonds for permanent road purposes be issued for and on behalf of said township in the sum of fifteen thousand dollars ($15,000), said bonds to be in the denomination of one hundred dollars or some multiple thereof, to bear interest at not exceeding six per cent (6 per cent) per annum, payable semi-annually, and to become due in not exceeding ten annual installments. The first of which shall become due not later than two years after the date of said bonds, and we therefore respectfully further petition the court to order an election to be held in said township upon the question of issuing said bonds in conformity with the provisions of laws of Missouri 1911, page 366-7.

Site Filled With Water.

Water was over a foot deep Monday in the postoffice site, where the workmen have been excavating for the past few days. The rain of Saturday night is responsible for it, and there was no drain to let the water out. They were busily at work Monday pumping the water out of the hole.

The excavating work on the site will be finished this week, and then the foundation work will start.

An old well was found on the ground where they have been digging and it was filled up with old bricks and dirt.

Went to Oklahoma.

Mrs. Nannie West and son, Clarence, and small grandson, Raymond West, living south of Maryville, left Saturday evening for Aline, Okla., to visit her son and daughter, Ernest West, and Mrs. J. W. Cook, who recently located there. The Cook family moved from near Pickering.

CONCEPTION TEAM WON.

Defeated the State Normal Team in the Ball Game Saturday Afternoon by a Score of 5 to 0.

It's always the unexpected that happens. The State Normal base ball squad went to Conception Saturday fully expecting to win from the collegians with ease. But they didn't. In fact, the teachers didn't have a look-in. Why? Simply because a gentleman by the name of Felix, who presided on the mound for the Catholics, positively treated "our boys" shamefully. He just would scarcely allow them to connect with the pill at all any more than to knock some weakly little rollers out to the infielders. The pedagogues got but three safe swats, all of the scratch variety, scattered throughout three different innings. Only one Normalite got to second base and there he perished. Needless to say the locals didn't even register.

"Shylock" Wilson, Coach Moore's chief twirler, pitched a credible game, if his mates could have located the horsehide, but alas! they couldn't. He was touched up for eleven safe swats, two of which were of the three-base variety, with the sacks almost intoxicated, which netted the Conception boys five runs. But just wait—the college boys are coming to Maryville for a return game on May 18, and then the home boys are going to "do things."

Charged with attempting to defraud the Spokane Dry Goods company of Spokane and Strain Bros. of this city by buying a large bill of goods of the former, shipping them here and trying to sell them to the Strains for less than half the cost, A. As was the case when a student here, Miss Badger has won the confidence and esteem of all those with whom she is associated at Blythedale, and when she departed for her home almost the entire community gathered at the station to bid her good-bye.

A MEASURE OF MERIT.

Maryville Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence.
Convincing evidence in Maryville.
Is not the testimony of strangers,
But the endorsement of Maryville people.
That's the kind of proof given here—
The statement of a Maryville citizen.

J. A. Murphy, 805 East Fourth street, Maryville, Mo., says: "I suffered considerabiy from kidney trouble and lumbago. I got up in the morning so stiff and lame with such a dull aching across my loins that I could hardly do my work. I suffered a great deal from kidney trouble, whenever I caught cold and the kidney secretions were dark and filled with sediment. My health failed and I was miserable when I read about Doan's Kidney Pills. I got a box of this remedy at Love's drug store (now Love & Gaugh's drug store), and it went at once to the seat of my trouble and corrected it."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

FOUND BODIES OF TITANIC VICTIMS

Sixty-Four Have Been Recovered by Ship Sent to Search.

NAMES CANNOT YET BE OBTAINED

Others Found and Sunk Again Because of Their Condition—Those Recovered Will be Identified as Soon as Possible.

St. John's, N. F., April 22.—Sixty-four bodies have been recovered by the cable steamer Mackay-Bennett, which has been searching in the vicinity of the Titanic disaster. It is said a number of bodies which were recovered were sunk again, as they were without identification marks. The names of those identified could not be obtained through the Cape Race wireless station.

The 64 bodies recovered are regarded as identifiable, according to the report. Those that were sunk were presumably in a condition making their preservation impossible.

Mackay-Bennett Boat Spoken.

Halifax, N. S., April 22.—Confirmation of reports that numerous bodies of victims of the Titanic were afloat in the vicinity of the disaster was received in a wireless dispatch from the steamship Bremen. The massage reads:

"The steamer Bremen, bound for New York and the steamer Rhein passed in the neighborhood of three large icebergs. Sighted numerous pieces of wreckage and a great number of human bodies with life preservers on floating in the sea. Sighted and spoke the cable steamer Mackay-Bennett.

"CAPTAIN PREAGER."

Will Report Names Promptly.

New York, April 22.—Two wireless messages addressed to J. Bruce Ismay, president of the International Mercantile Marine company, were received at the office of the White Star line from the cable ship Mackay-Bennett one of which reported the finding of bodies.

Mr. Ismay, after reading the two messages, said. "Every effort will be made to identify all bodies recovered and any news will be sent through immediately by wireless. In addition to any such messages as these the Mackay-Bennett will make a report of its activities each morning by wireless and such reports will be made public at the offices of the White Star line.

Will Continue Search.

"The cable ship has orders to remain on the scene of the wreck for at least a week, but should a large number of bodies be recovered before that time, she will return to Halifax with them. The search for bodies will not be abandoned until not a vestige of hope remains for any more recoveries."

WOULD HONOR A TITANIC HERO

Millionaire Mining Man Proposes Memorial Monument to Major Butt in Washington.

Washington, April 22.—John Hays Hammond, millionaire mining man, brought to the White house a suggestion for the erection of a memorial to Maj. Butt in the National Capitol as an acknowledgment of his service and in commemoration of his valiant work in the Titanic wreck. He volunteered to start a subscription fund, but added that he would await action by congress. If that body refuses, he said, he would personally see that a memorial was erected.

Taft has carried seven counties with a total of 93 delegates to the state convention, while Roosevelt has carried 25 counties with a total of 236 delegates.

All of the primaries will be held in the fourth and eight districts Tuesday and in the sixth district next Saturday. Some of the counties in the fifth district have already held their primaries and convention and enough will be held this week to determine the result.

The congressional committtees in the fourth and eight districts instructed the county committeee to hold primaries on the same date, April 23. The sixth district congressional committee fixed April 27 as the date for the primaries or conventions in sixth district counties.

FARMERS SEEK EXPERT ADVICE

Specialists From Kansas Agricultural College Visiting Farms Where Problems are Troublesome.

Manhattan, Kan., April 22.—Some of the farmers of Kansas, aided by the agricultural college, will try the plan of having a county advisor. P. E. Crabtree and others from the extension department have been giving service of this sort for several years. But this is to be placed upon a schedule this year about as it might be expected to operate a regularly authorized by law.

Mr. Crabtree spent three days in Allen county last week, by arrangement, and has returned to stay all of this week. Mr. Crabtree will visit two farms every day, and more if possible, giving preference to those where serious problems are to be worked. He will spend three or four days in Neosho county, and will then go to Leavenworth, at the request of the Progressive Agricultural club.

PASSENGERS IN PULLMAN ROBBED

Two Masked Men Got $850 Near Bureau, Illinois.

PORTER LOCKED DOOR ON THEM

Badly Beaten With Guns for Attempt to Interfere—One Man Believed to be Wm. LaTrasse, a Dangerous Man.

Kansas City, Mo., April 22.—Two masked men searched and robbed occupants of the sleeping car Nottingham on the Chicago, Rock Island & Pacific railway's Golden State Limited early in the morning, just after the train left Bureau, Ill., bound for Kansas City. Money and valuables estimated at $850 were taken from eight passengers.

The manner of the hold-up leads officers to believe that William LaTrasse, who single handed held up a Missouri Pacific train between Kansas City and Leavenworth a year ago last Christmas, was one of the Rock Island robbers. LaTrasse escaped from the Wyandotte county jail after he had been sentenced to prison for the Missouri Pacific robbery, and has never been captured.

Porter Played Hero.

Five minutes out of Bureau, two men wearing masks entered the sleeper. The porter, covered by revolvers, was made to lead the robbers to the occupied berths. Busy with their work of taking money and jewelry from the passengers, the two men failed to watch the porter, who worked his way to the front of the car and locked the door. He then pulled the air rope—a signal to stop the train. When the robbers heard the train brakes set they stopped their work and ran to the front of the car to leave the train. They paused long enough to beat the porter over the head with the butts of their revolvers. The men got out of the rear of the car just as the train stopped, five miles east of Sheffield, Ill.

The Golden State Limited arrived in Kansas City at 11:55 o'clock, an hour and 25 minutes late, because of the holdup. Word of the robbery had been wired to police officers here, and William Woods, a patrolman not in uniform, took statements from the passengers before they left the car at the Union station. Passengers said he was the first officer they had seen since the holdup ten hours before.

Returned a Child's Nickel.

Otis L. Benton, who is a banker at Oberlin, Kan., saved a ring and $200 because of the delay the bandits encountered in getting a diamond ring from his wife. The robbers commanded Mrs. Benton to take off her ring. It fitted tightly, and while the robber waited for her to remove it, Mr. Benton slipped his own ring off and buried it and his pocket book among the bedclothes. The robbers, however, got $250 in money and a diamond ring from the Bentons.

Mrs. Mary Herron lost $96 to the highwaymen. Her little daughter had a nickel tied in a handkerchief. The robber took it, but tossed it back with a smile.

The Wabash Receives New Passenger and Freight Engines

Pacific Type of New Wabash Passenger Engine

The Wabash Rail-road has just received and put in service a large number of new locomotives for freight and passenger service; also placed another order for additional motive power for early delivery.

The passenger engines are of the Pacific type in the latest model of high grade passenger locomotive, with 24 by 26 inch cylinders, weight 400,000 lbs., boiler pressure 200 lbs., and tractive power 35,360 lbs. The tender has a capacity for 15 tons of coal and 8,000 gallons of water. These engines are capable of hauling the heaviest passenger trains. In designing them, special attention has been given to starting a train and getting it up to the maximum speed quickly, which insures a smooth, even run—so desirable to transportation.

The freight engines are known as the Mikado type, which is the last word in motive power. Particular attention has been given to lessening the consumption of fuel, thus enabling the engines to make long runs for coal and water, avoiding the necessity for frequent stops. They have cylinders 25 by 30 inches, weigh 421,000 lbs., boiler pressure 200 lbs., and tractive power 49,800 lbs. The capacity of the tender is 15 tons of coal and 8,000 gallons of water. Although they have been in service but a short time, they have shown surprising results in both efficiency and economy of operation.

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not know the value of Sage and Sulphur for keeping the hair dark soft and glossy and in good condition As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

ACTUAL STARVATION.

Facts About Indigestion and Its Relief That Should Interest You.

Although Indigestion and Dyspepsia are so prevalent, most people do not thoroughly understand their cause and cure. There is no reason why most people should not eat anything they desire—if they will only chew it carefully and thoroughly. Many actually starve themselves into sickness through fear of eating every good-looking, good-smelling, and good-tasting food, because it does not agree with them.

The best thing to do is to fit yourself to digest any good food.

We believe we can relieve Dyspepsia. We are so confident of this fact that we guarantee and promise to supply the medicine free of all cost to every one who will use it, who is not perfectly satisfied with the results which it produces. We exact no promises, and put no one under any obligation whatever. Surely, nothing could be fairer. We are located right here and our reputation should be sufficient assurance of the genuineness of our offer.

TORNADOES TAKE TOLL OF DEATH

Heavy Damage in Illinois, Indiana, Oklahoma and Kansas.

FOUR TWISTERS MERGE INTO ONE

Many Persons Killed and Injured in Path of Storms—All Wires are Down and Details Difficult to Obtain.

Hoisington, Kan., April 22.—Fifteen persons were injured, four probably fatally, at Bison, a town of 400 persons, 24 miles west, when a tornado struck the town in the early afternoon. Most of the houses in the south and east part of the town were blown down, a large elevator was destroyed and a number of freight cars were blown a quarter of a mile.

Ran for Caves.

Hennessey, Ok., April 22.—A tornado struck Hennessey, demolishing business buildings, houses and churches and doing thousands of dollars damage. At about 3:50 o'clock the wind raised and the sky became overcast. The roaring that accompanied the tornado was heard from the southwest and the people began running for caves. In a few minutes the twister passed over the town. It was followed by a hail storm with stones three and four inches in diameter. All telephone and telegraph wires are down.

Injured Many at Perry.

Guthrie, Ok., April 22.—A tornado that struck Perry, 30 miles north of here killed one man, injured 20 other persons, some of them severely, and did great damage to property. West from Perry the tornado formed again between Dover and Hennessey and struck Hennessey, killing two women and destroying several dwellings. No damage was done at Dover.

Details are difficult to obtain from Perry, as all telephone and telegraph wires are down.

Three Dead at Yukon.

Oklahoma City, Ok., April 22.—Three persons are known to have been killed, at least a score injured, and many farm houses and village dwellings were wrecked when a tornado, which formed in the vicinity of Yukon, near Oklahoma City, swept in a northeasterly direction through the counties of Oklahoma and Logan.

Near Yukon a school house was demolished. All of the children have been accounted for except one.

Four distinct "twisters" formed simultaneously between Yukon, Dover, Kingfisher and Hennessey, according to advices from Yukon. They merged near that town and swept to the northeast.

All telephone and telegraph wires north of Guthrie, where the storm is believed to have taken its heaviest toll, are out of commission.

Nine Killed in Indiana.

Kentland, Ind., April 22.—Nine persons were killed, six others fatally bruised by flying debris and thousands of dollars' worth of property destroyed in an around Morocco by a tornado.

Eleven Dead in Illinois.

Chicago, April 22.—At least seven persons were killed, many more were injured, a village destroyed and many thousands of dollars damage caused to farm and small town property and electric lines by a tornado.

Four persons were reported killed at Murphysboro in the storm which swept over all southern Illinois.

Wauponsee, a village near Coal City, was demolished, destroying telephonic communication and making it impossible to learn the damage.

Chatsworth Hard Hit.

Bloomington, Ill., April 22.—A tornado passed over Chatsworth, 44 miles northeast of here. Many buildings in the city were unroofed and store fronts blown in. Farm houses and outbuildings are reported demolished. Telephone wires are down.

Killed Three in Texas.

Farmersville, Tex., April 22.—A tornado swept over Collin county at 6 o'clock p. m. Three children were killed in the ruins of farm houses.

Conference of Commercial Bodies.

Washington, April 22.—A big conference of representatives of commercial organizations in all parts of the United States opened here today, its purpose being to consider proposals for the organization of a national board of commerce and trade. The meeting was called by Secretary of Commerce and Labor Nagel at the direction of the president.

Brakeman Fell From Train.

Toronto, Kan., April 22.—Joe Doughty, a brakeman on a Santa Fe passenger train, fell from the train near the city limits, and is supposed to be fatally injured. He was not missed until the train stopped at station. The train was backed and he was found at the foot of a 10-foot embankment.

Warship to Mexico.

Washington, April 22.—President Taft probably will send a warship soon to the west coast of Mexico to enable Americans isolated in Sinaloa and other states to leave the disturbed districts. A state department announcement said this action was likely in view of the general anxiety for Americans in those localities.

RAILROAD UNIONS ARE MERGED

FIVE CRAFTS OF WESTERN SHOP EMPLOYES COMBINE.

Organization Representing 300,000 Men Completed—Chose Title "Federation of Federations."

Kansas City, Mo., April 22.—The federation of the Western railroad shop workers has become an actual organization. The new federation was formally launched when the 250 delegates, representing 47 railroads west of Chicago, in convention at the Labor Temple here adopted a constitution and agreed upon the name "Federation of Federations." The remaining work of adopting by-laws will be taken up at once and the convention will close Tuesday afternoon.

The Federation of Federations has 300,000 members and includes the unions of five different crafts—the carmen, boilermakers and helpers, blacksmiths and helpers, machinists and sheet metal workers.

The movement to federate the railroad crafts has been agitated for some time, but no action was taken until the officials of the Harriman lines a few months ago refused to treat with men representing the allied crafts of the Harriman system. This resulted in unsuccessful strikes on the Southern Pacific and the Illinois Central railroads. Then the unions decided more united action was necessary and delegates were chosen to meet in Kansas City April 15. Since that date the convention has been in continual session.

As to whether the new organization is going to extend the strikes, the labor leaders were silent.

"The condition of some of those roads whose shops are filled with inexperienced strike breakers is dangerous," said J. W. Kline of Chicago, president of the International Brotherhood of Blacksmiths, after the meeting.

"The public generally has no idea of how dangerous the conditions are. I understand that one of the associations of traveling men started to make a protest, but that later they dropped the matter."

SEDALIA VOTES BIG BOND ISSUE

Proposition to Spend $200,000 for Rock Roads Carried by Large Majority.

Sedalia, Mo., April 22.—At a special election held here a proposition to issue $200,000 in bonds to build 52 miles of rock roads in the Sedalia 12-mile road district carried by a vote of 2,894 to 360. That is said to be the largest bond issue by a road district in Missouri. This is the largest special road district in the state.

There is much rejoicing in Sedalia on account of the proposition carrying by so large a vote. A celebration will be held next Saturday, when Gov. Hadley is expected to deliver an address.

Production and Use of Gold.

Washington, April 22.—The report of George E. Roberts, director of the mint, just issued, gives an extensive review of the production and distribution of gold during the 21 years beginning with 1890 and ending with 1910. These years cover the period of what has been called the "new golden era," beginning with the discovery of the Transvaal gold field and of the cyanide process of extraction. The gold production is shown to mount steadily upward, save for the interruption caused by the Boer war, from $113,000,000 in 1890 to $454,000,000 in 1910. The review then undertakes to trace these new supplies of gold into use, showing the estimated consumption in the industrial arts, the absorption of Asia, the amounts taken by new and developing countries, and finally the amounts that have entered into the bank reserves of the important commercial countries.

VOLUME 2. MARYVILLE, MISSOURI, MONDAY, APRIL 22, 1912. NO. 277.

FOR A BOND ISSUE

UNION TOWNSHIP TALKING OF ELECTION TO VOTE ON $15,000.

FOR PERMANENT ROADS

Petition to Be Presented to County Court to Have an Election Day Set.

At the meeting of the county court to be held on Monday, May 6, the township board of Union township will present a petition to the county court requesting that body to set aside a date for a special election to be held in that township for the purpose of voting on a $15,000 bond issue for permanent road purposes. It is only necessary to secure twenty signers to the petition to be presented to the county court, and that many and more will be secured by the time the court meets.

It requires a two-thirds majority for the bond issue to carry, and should it be successful Union township will receive $15,000 from the state, giving that township $30,000 to spend for good roads.

Jefferson township was the first one in the county to have the road bond issue presented, but it was called off a day or so before the election day. Their election was to have been last December.

People in Union township are greatly interested in the proposition, and it is to be hoped that that township will carry the proposition, as it means better roads. The outcome of the matter in that township will be watched closely, and should the proposition carry, probably other townships will take the road bond issue up.

The petition that is being circulated in Pickering and that township follows:

To the Honorable County Court of Nodaway County, Mo.: We, the undersigned twenty or more legal voters of Union township, Nodaway county, Missouri, hereby petition your honorable body that bonds for permanent road purposes be issued for and on behalf of said township in the sum of fifteen thousand dollars ($15,000), said bonds to be in the denomination of one hundred dollars or some multiple thereof, to bear interest at not exceeding six per cent (6 per cent) per annum, payable semi-annually, and to become due in not exceeding ten annual installments. The first of which shall become due not later than two years after the date of said bonds. And we therefore respectfully further petition the court to order an election to be held in said township upon the question of issuing said bonds in conformity with the provisions of laws of Missouri 1911, page 366-7.

Site Filled With Water.

Water was over a foot deep Monday in the postoffice site, where the workmen have been excavating for the past few days. The rain of Saturday night is responsible for it, and there was no drain to let the water out. They were busily at work Monday pumping the water out of the hole.

The excavating work on the site will be finished this week, and then the foundation work will start.

An old well was found on the ground where they have been digging and it was filled up with old bricks and dirt.

CONCEPTION TEAM WON.

Defeated the State Normal Team in the Ball Game Saturday Afternoon by a Score of 5 to 0.

It's always the unexpected that happens. The State Normal base ball squad went to Conception Saturday fully expecting to win from the collegians with ease. But they didn't. In fact, the teachers didn't have a look-in. Why? Simply because a gentleman by the name of Felix, who presided on the mound for the Catholics, positively treated "our boys" shamefully. He just would scarcely allow them to connect with the pill at all any more than to knock some weakly little rollers out to the infielders. The pedagogues got but three safe swats, all of the scratch variety, scattered throughout three different innings. Only one Normalite got to second base and there he perished. Needless to say the locals didn't even register.

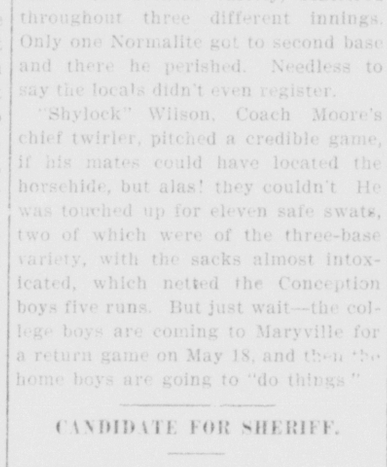

"Shylock" Wilson, Coach Moore's chief twirler, pitched a credible game, if his mates could have located the horsehide, but alas! they couldn't. He was touched up for eleven safe swats, two of which were of the three-base variety, with the sacks almost intoxicated, which netted the Conception boys five runs. But just wait—the college boys are coming to Maryville for a return game on May 18, and then the home boys are going to "do things."

CANDIDATE FOR SHERIFF.

According to a dispatch in today's Kansas City Times, A. F. Perry of Maryville was arrested at Great Falls, Mont., Saturday. There is no A. F. Perry living here, and it is thought that it is Frank J. The dispatch from Great Falls, Mont., follows:

Charged with attempting to defraud the Spokane Dry Goods company of Spokane and Strain Bros. of this city by buying a large bill of goods of the former, shipping them here and trying to sell them to the Strains for less than half the cost, A. F. Perry of Maryville, Mo., is held in the county jail for Spokane officers. Perry says he came from Maryville and telegraphed a lawyer there after his arrest. He says he can get money to settle his trouble at Spokane, but will gladly go back to adjust it without requisition papers.

FOR CARL WRIGHT

M. E. SUNDAY SCHOOL TO RAISE $75 OR MORE FOR FUND.

OTHERS ARE RESPONDING

Farmers Donated $21.60 at Sale Held at Pavilion—Still Need Money.

Many are responding to the fund for Carl Wright, and it now looks as if the necessary amount will be raised to defray the expenses of treatment to restore his health. But many a dollar is still needed, and the people who desire to donate should do so at once.

At the sale held Saturday afternoon at Gray's sale pavilion, R. P. Hosmer raised $21.60 from the farmers who were in attendance for this fund.

The Methodist Sunday school took steps Sunday to raise at least $75 from that Sunday school for the fund. Rev. John's class subscribed $25. Other classes are arranging to have a candy sale and also a market for this purpose. The Epworth League of the church will also take the matter up.

The Berean class of the M. E. church, South, are going to hold a social Tuesday evening in the basement of the flats, proceeds to go to the Carl Wright fund. A short program will be given.

A nice rain fell in Maryville and over the county Saturday night. The rainfall in Maryville, according to Weather Observer Brink, was 1.18 inches. A MEASURE OF MERIT.

Maryville Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence.
Convincing evidence in Maryville.
Is not the testimony of strangers,
But the endorsement of Maryville people.

That's the kind of proof given here—
The statement of a Maryville citizen.

J. A. Murphy, 805 East Fourth street, Maryville, Mo., says: "I suffered considerably from kidney trouble and lumbago. I got up in the morning so stiff and lame with such a dull aching across my loins that I could hardly do my work. I suffered a great deal from kidney trouble, whenever I caught cold and the kidney secretions were dark and filled with sediment. My health failed and I was miserable when I read about Doan's Kidney Pills. I got a box of this remedy at Love's drug store (now Love & Gaugh's drug store), and it went at once to the seat of my trouble and corrected it."

FOUND BODIES OF TITANIC VICTIMS

Sixty-Four Have Been Recovered by Ship Sent to Search.

NAMES CANNOT YET BE OBTAINED

Others Found and Sunk Again Because of Their Condition—Those Recovered Will be Identified as Soon as Possible.

St. John's, N. F., April 22.—Sixty-four bodies have been recovered by the cable steamer Mackay-Bennett, which has been searching in the vicinity of the Titanic disaster. It is said a number of bodies which were recovered were sunk again, as they were without identification marks. The names of those identified could not be obtained through the Cape Race wireless station.

The 64 bodies recovered are regarded as identifiable, according to the report. Those that were sunk were presumably in a condition making their preservation impossible.

Mackay-Bennett Boat Spoken.

Halifax, N. S., April 22.—Confirmation of reports that numerous bodies of victims of the Titanic were afloat in the vicinity of the disaster was received in a wireless dispatch from the steamship Bremen. The massage reads:

"The steamer Bremen, bound for New York and the steamer Rhein passed in the neighborhood of three large icebergs. Sighted numerous pieces of wreckage and a great number of human bodies with life preservers on floating in the sea. Sighted and spoke the cable steamer Mackay-Bennett.

"CAPTAIN PREAGER."

Will Report Names Promptly.

New York, April 22.—Two wireless messages addressed to J. Bruce Ismay, president of the International Mercantile Marine company, were received at the office of the White Star line from the cable ship Mackay-Bennett one of which reported the finding of bodies.

Mr. Ismay, after reading the two messages, said. "Every effort will be made to identify all bodies recovered and any news will be sent through immediately by wireless. In addition to any such messages as these the Mackay-Bennett will make a report of its activities each morning by wireless and such reports will be made public at the offices of the White Star line.

Will Continue Search.

"The cable ship has orders to remain on the scene of the wreck for at least a week, but should a large number of bodies be recovered before that time, she will return to Halifax with them. The search for bodies will not be abandoned until not a vestige of hope remains for any more recoveries."

Thirty-Three Counties Have Selected Delegates—Fourth and Eighth Districts Vote Tuesday.

Topeka, April 22.—This is a week of great political importance in Kansas. Enough counties will hold primaries to decide the presidential contests in four congressional districts and the state convention. Thirty-three counties have selected their delegates. Taft has carried seven counties with a total of 93 delegates to the state convention, while Roosevelt has carried 25 counties with a total of 236 delegates.

All of the primaries will be held in the fourth and eight districts Tuesday and in the sixth district next Saturday. Some of the counties in the fifth district have already held their primaries and convention and enough will be held this week to determine the result.

The congressional committtees in the fourth and eight districts instructed the county committeee to hold primaries on the same date, April 23. The sixth district congressional committee fixed April 27 as the date for the primaries or conventions in sixth district counties.

FARMERS SEEK EXPERT ADVICE

Specialists From Kansas Agricultural College Visiting Farms Where Problems are Troublesome.

Manhattan, Kan., April 22.—Some of the farmers of Kansas, aided by the agricultural college, will try the plan of having a county advisor. P. E. Crabtree and others from the extension department have been giving service of this sort for several years. But this is to be placed upon a schedule this year about as it might be expected to operate as regularly authorized by law.

Mr. Crabtree spent three days in Allen county last week, by arrangement, and has returned to stay all of this week. Mr. Crabtree will visit two farms every day, and more if possible, giving preference to those where serious problems are to be worked. He will spend three or four days in Neosho county, and will then go to Leavenworth, at the request of the Progressive Agricultural club.

MEXICANS TO AMERICAN PRISON

Thirteen Men Connected With Reyes Revolution Begin Sentence for Smuggling Arms.

Leavenworth, Kan., April 22.—Thirteen men, two Americans and 11 Mexicans, who were implicated in the Reyes revolution began sentences in the federal prison here. They were convicted of smuggling arms and ammunition across the Mexican border in violation of the neutrality laws. They are to serve a year and a day.

One member of the gang, Dr. Rafael Limon Molina, was a conspicuous revolutionist. It was he who helped Reyes launch his campaign at El Paso, Tex. The Mexicans still are loyal to their cause. They expressed confidence that Reyes, sooner or later, would rise to the top.

KANSAS GOVERNOR IN DEMAND

Urged by Roosevelt Men to Visit Massachusetts to Answer President Taft's Remarks.

Topeka, April 22.—Massachusetts is the next big state that will hold presidential primary and the Roosevelt leaders there have sent out an urgent call to Gov. Stubbs to come next week and help.

President Taft has announced he will go to Massachusetts next week on a speech making tour with the avowed purpose of replying to the criticisms of his administration made by Col. Roosevelt, Gov. Stubbs and other progressives and it is desired that Gov. Stubbs follow the president in Massachusetts and answer, if necessary, the president's remarks.

Kansas Town to Aid Roads.

Junction City, Kan., April 22.—More than 100 miles of road in Geary county will be worked by parties of town men May 14. That was decided at a meeting of good road boosters at the Commercial club here, when 11 routes were laid out and captains appointed for the crews of men. In the evening a banquet will be given to the workers here.

PASSENGERS IN PULLMAN ROBBED

Two Masked Men Got $850 Near Bureau, Illinois.

PORTER LOCKED DOOR ON THEM

Badly Beaten With Guns for Attempt to Interfere—One Man Believed to be Wm. LaTrasse, a Dangerous Man.

Kansas City, Mo., April 22.—Two masked men searched and robbed occupants of the sleeping car Nottingham on the Chicago, Rock Island & Pacific railway's Golden State Limited early in the morning, just after the train left Bureau, Ill., bound for Kansas City. Money and valuables estimated at $850 were taken from eight passengers.

The manner of the hold-up leads officers to believe that William LaTrasse, who single handed held up a Missouri Pacific train between Kansas City and Leavenworth a year ago last Christmas, was one of the Rock Island robbers. LaTrasse escaped from the Wyandotte county jail after he had been sentenced to prison for the Missouri Pacific robbery, and has never been captured.

Porter Played Hero.

Five minutes out of Bureau, two men wearing masks entered the sleeper. The porter, covered by revolvers, was made to lead the robbers to the occupied berths. Busy with their work of taking money and jewelry from the passengers, the two men failed to watch the porter, who worked his way to the front of the car and locked the door. He then pulled the air rope—a signal to stop the train. When the robbers heard the train brakes set they stopped their work and ran to the front of the car to leave the train. They paused long enough to beat the porter over the head with the butts of their revolvers. The men got out of the rear of the car just as the train stopped, five miles east of Sheffield, Ill.

The Golden State Limited arrived in Kansas City at 11:55 o'clock, an hour and 25 minutes late, because of the holdup. Word of the robbery had been wired to police officers here, and William Woods, a patrolman not in uniform, took statements from the passengers before they left the car at the Union station. Passengers said he was the first officer they had seen since the holdup ten hours before.

Returned a Child's Nickel.

Otis L. Benton, who is a banker at Oberlin, Kan., saved a ring and $200 because of the delay the bandits encountered in getting a diamond ring from his wife. The robbers commanded Mrs. Benton to take off her ring. It fitted tightly, and while the robber waited for her to remove it, Mr. Benton slipped his own ring off and buried it and his pocket book among the bedclothes. The robbers, however, got $250 in money and a diamond ring from the Bentons.

Mrs. Mary Herron lost $96 to the highwaymen. Her little daughter had a nickel tied in a handkerchief. The robber took it, but tossed it back with a smile.

The Wabash Receives New Passenger and Freight Engines

Pacific Type of New Wabash Passenger Engine

The Wabash Rail-road has just received and put in service a large number of new locomotives for freight and passenger service; also placed another order for additional motive power for early delivery.

The passenger engines are of the Pacific type in the latest model of high grade passenger locomotive, with 24 by 26 inch cylinders, weight 400,000 lbs., boiler pressure 200 lbs., and tractive power 35,360 lbs. The tender has a capacity for 15 tons of coal and 8,000 gallons of water. These engines are capable of hauling the heaviest passenger trains. In designing them, special attention has been given to starting a train and getting it up to the maximum speed quickly, which insures a smooth, even run—so desirable to transportation.

The freight engines are known as the Mikado type, which is the last word in motive power. Particular attention has been given to lessening the consumption of fuel, thus enabling the engines to make long runs for coal and water, avoiding the necessity for frequent stops. They have cylinders 25 by 30 inches, weigh 421,000 lbs., boiler pressure 200 lbs., and tractive power 49,800 lbs. The capacity of the tender is 15 tons of coal and 8,000 gallons of water. Although they have been in service but a short time, they have shown surprising results in both efficiency and economy of operation.

TORNADOES TAKE TOLL OF DEATH

Heavy Damage in Illinois, Indiana, Oklahoma and Kansas.

FOUR TWISTERS MERGE INTO ONE

Many Persons Killed and Injured in Path of Storms—All Wires are Down and Details Difficult to Obtain.

Hoisington, Kan., April 22.—Fifteen persons were injured, four probably fatally, at Bison, a town of 400 persons, 24 miles west, when a tornado struck the town in the early afternoon. Most of the houses in the south and east part of the town were blown down, a large elevator was destroyed and a number of freight cars were blown a quarter of a mile.

Ran for Caves.

Hennessey, Ok., April 22.—A tornado struck Hennessey, demolishing business buildings, houses and churches and doing thousands of dollars damage. At about 3:50 o'clock the wind raised and the sky became overcast. The roaring that accompanied the tornado was heard from the southwest and the people began running for caves. In a few minutes the twister passed over the town. It was followed by a hail storm with stones three and four inches in diameter. All telephone and telegraph wires are down.

Injured Many at Perry.

Guthrie, Ok., April 22.—A tornado that struck Perry, 30 miles north of here killed one man, injured 20 other persons, some of them severely, and did great damage to property. West from Perry the tornado formed again between Dover and Hennessey and struck Hennessey, killing two women and destroying several dwellings. No damage was done at Dover.

Details are difficult to obtain from Perry, as all telephone and telegraph wires are down.

Three Dead at Yukon.

Oklahoma City, Ok., April 22.—Three persons are known to have been killed, at least a score injured, and many farm houses and village dwellings were wrecked when a tornado, which formed in the vicinity of Yukon, near Oklahoma City, swept in a northeasterly direction through the counties of Oklahoma and Logan.

Near Yukon a school house was demolished. All of the children have been accounted for except one.

Four distinct "twisters" formed simultaneously between Yukon, Dover, Kingfisher and Hennessey, according to advices from Yukon. They merged near that town and swept to the northeast.

All telephone and telegraph wires north of Guthrie, where the storm is believed to have taken its heaviest toll, are out of commission.

Nine Killed in Indiana.

Kentland, Ind., April 22.—Nine persons were killed, six others fatally bruised by flying debris and thousands of dollars' worth of property destroyed in an around Morocco by a tornado.

Eleven Dead in Illinois.

Chicago, April 22.—At least seven persons were killed, many more were injured, a village destroyed and many thousands of dollars damage caused to farm and small town property and electric lines by a tornado.

Four persons were reported killed at Murphysboro in the storm which swept over all southern Illinois.

Wauponsee, a village near Coal City, was demolished, destroying telephonic communication and making it impossible to learn the damage.

Chatsworth Hard Hit.

Bloomington, Ill., April 22.—A tornado passed over Chatsworth, 44 miles northeast of here. Many buildings in the city were unroofed and store fronts blown in. Farm houses and outbuildings are reported demolished. Telephone wires are down.

Killed Three in Texas.

Farmersville, Tex., April 22.—A tornado swept over Collin county at 6 o'clock p. m. Three children were killed in the ruins of farm houses.

Conference of Commercial Bodies.

Washington, April 22.—A big conference of representatives of commercial organizations in all parts of the United States opened here today, its purpose being to consider proposals for the organization of a national board of commerce and trade. The meeting was called by Secretary of Commerce and Labor Nagel at the direction of the president.

Brakeman Fell From Train.

Toronto, Kan., April 22.—Joe Doughty, a brakeman on a Santa Fe passenger train, fell from the train near the city limits, and is supposed to be fatally injured. He was not missed until the train stopped at station. The train was backed and he was found at the foot of a 10-foot embankment.

Warship to Mexico.

Washington, April 22.—President Taft probably will send a warship soon to the west coast of Mexico to enable Americans isolated in Sinaloa and other states to leave the disturbed districts. A state department announcement said this action was likely in view of the general anxiety for Americans in those localities.

RAILROAD UNIONS ARE MERGED

FIVE CRAFTS OF WESTERN SHOP EMPLOYES COMBINE.

Organization Representing 300,000 Men Completed—Chose Title "Federation of Federations."

Kansas City, Mo., April 22.—The federation of the Western railroad shop workers has become an actual organization. The new federation was formally launched when the 250 delegates, representing 47 railroads west of Chicago, in convention at the Labor Temple here adopted a constitution and agreed upon the name "Federation of Federations." The remaining work of adopting by-laws will be taken up at once and the convention will close Tuesday afternoon.

The Federation of Federations has 300,000 members and includes the unions of five different crafts—the carmen, boilermakers and helpers, blacksmiths and helpers, machinists and sheet metal workers.

The movement to federate the railroad crafts has been agitated for some time, but no action was taken until the officials of the Harriman lines a few months ago refused to treat with men representing the allied crafts of the Harriman system. This resulted in unsuccessful strikes on the Southern Pacific and the Illinois Central railroads. Then the unions decided more united action was necessary and delegates were chosen to meet in Kansas City April 15. Since that date the convention has been in continual session.

As to whether the new organization is going to extend the strikes, the labor leaders were silent.

"The condition of some of those roads whose shops are filled with inexperienced strike breakers is dangerous," said J. W. Kline of Chicago, president of the International Brotherhood of Blacksmiths, after the meeting.

"The public generally has no idea of how dangerous the conditions are. I understand that one of the associations of traveling men started to make a protest, but that later they dropped the matter."

SEDALIA VOTES BIG BOND ISSUE

Proposition to Spend $200,000 for Rock Roads Carried by Large Majority.

Sedalia, Mo., April 22.—At a special election held here a proposition to issue $200,000 in bonds to build 52 miles of rock roads in the Sedalia 12-mile road district carried by a vote of 2,804 to 269. That is said to be the largest bond issue by a road district in Missouri. This is the largest special road district in the state.

There is much rejoicing in Sedalia on account of the proposition carrying by so large a vote. A celebration will be held next Saturday, when Gov. Hadley is expected to deliver an address.

Production and Use of Gold.

Washington, April 22.—The report of George E. Roberts, director of the mint, just issued, gives an extensive review of the production and distribution of gold during the 21 years beginning with 1890 and ending with 1910. These years cover the period of what has been called the "new golden era," beginning with the discovery of the Transvaal gold field and of the cyanide process of extraction. The gold production is shown to mount steadily upward, save for the interruption caused by the Boer war, from $113,000,000 in 1890 to $454,000,000 in 1910. The review then undertakes to trace these new supplies of gold into use, showing the estimated consumption in the industrial arts, the absorption of Asia, the amounts taken by new and developing countries, and finally the amounts that have entered into the bank reserves of the important commercial countries.

A HARMLESS WAY TO DARKEN THE HAIR

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not know the value of Sage and Sulphur for keeping the hair dark soft and glossy and in good condition As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Undoubtedly, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

Facts About Indigestion and Its Relief That Should Interest You.

Although Indigestion and Dyspepsia are so prevalent, most people do not thoroughly understand their cause and cure. There is no reason why most people should not eat anything they desire—if they will only chew it carefully and thoroughly. Many actually starve themselves into sickness through fear of eating every good-looking, good-smelling, and good-tasting food, because it does not agree with them.

The best thing to do is to fit yourself to digest any good food.

We believe we can relieve Dyspepsia. We are so confident of this fact that we guarantee and promise to supply the medicine free of all cost to every one who will use it, who is not perfectly satisfied with the results which it produces. We exact no promises, and put no one under any obligation whatever. Surely, nothing could be fairer. We are located right here and our reputation should be sufficient assurance of the genuineness of our offer.

We want every one troubled with Indigestion or Dyspepsia in any form to come to our store and buy a box of Rexall Dyspepsia Tablets. Take them home and give them a reasonable trial, according to directions. Then, if not satisfied, come to us and get your money back. They are very pleasant to take; they aid to soothe the irritable stomach, to strengthen and invigorate the digestive organs, and to promote a healthy and natural bowel action, thus leading to perfect and healthy digestion and assimilation.

A 25c. package of Rexall Dyspepsia Tablets furnishes 15 days' treatment. In ordinary cases, this is sufficient to produce a cure. In more chronic cases a longer treatment, of course, is necessary, and depends upon the severity of the trouble. For such cases, we have two larger sizes which sell for 50c and $1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store.
